Arad Y, Spadaro LA, Roth M, Newstein D, Guerci AD. Treatment of Asymptomatic Adults With Elevated Coronary Calcium Scores With Atorvastatin, Vitamin C, and Vitamin E: The St. Francis Heart Study Randomized Clinical Trial. *J Am Coll Cardiol* 2005;46:166–72.

In this paper, the authors erroneously reported that 30% of subjects had a family history of premature coronary artery disease. The correct figure is 54%.

This error does not affect the conclusions of the St. Francis Heart Study randomized clinical trial: treatment of low- and intermediate-risk middle-aged subjects with atorvastatin, 20 mg daily, vitamin C, 1 g daily, and vitamin E, 1,000 U daily, was associated with a 30% reduction in atherosclerotic cardiovascular disease events ($p = 0.08$) and did not affect the rate of progression of coronary calcification.

The authors apologize for this error.

Mattiello T, Guerriero R, Lotti LV, et al. Aspirin Extrusion From Human Platelets Through Multidrug Resistance Protein-4-Mediated Transport Evidence of a Reduced Drug Action in Patients After Coronary Artery Bypass Grafting. *J Am Coll Cardiol* 2011;58:752–61.

In this paper, on the first page, Dr. Bruna Pucci's affiliation was incorrect. The correct affiliation for Dr. Pucci is: Department of Cellular and Molecular Pathology, IRCCS San Raffaele Pisana, Rome, Italy.

The authors apologize for this error.

McNamara DM, Starling RC, Cooper LT, et al., for the IMAC Investigators. Clinical and Demographic Predictors of Outcomes in Recent Onset Dilated Cardiomyopathy: Results of the IMAC (Intervention in Myocarditis and Acute Cardiomyopathy)-2 Study. *J Am Coll Cardiol* 2011;58:1112–8.

In this paper, the unit for diastolic blood pressure (DBP) was incorrectly listed as mg/dl (rather than the correct unit of mm Hg) 7 times in the text:

- On page 1113, right column, line 11 from the bottom should read “diastolic blood pressure of <70 mm Hg at baseline.”
- On page 1116, left column, line 4 should read “diastolic blood pressure of 70 mm Hg.”
- On page 1116, left column, line 6 should read “diastolic blood pressure of more than 70 mm Hg.”
- On page 1117, in Table 3, under the row “Race and diastolic BP,” the following 3 subrows should read:
White, DBP <70 mm Hg
Black, DBP <70 mm Hg
Black, DBP \geq 70 mm Hg
- On page 1117, in the Table 3 footnote, line 3 should read “DBP \geq 70 mm Hg.”

The authors apologize for this error.

doi:10.1016/j.jacc.2011.08.013

Voulgari C, Tentolouris N, Dilaveris P, Tousoulis D, Katsilambros N, Stefanadis C. Increased Heart Failure Risk in Normal-Weight People With Metabolic Syndrome Compared With Metabolically Healthy Obese Individuals. *J Am Coll Cardiol* 2011;58:1343–50.

In this paper, in the first page abstract, in line 3 of the Results section, there is a typo in the 95% confidence interval. For the upper value, “0.33” should be changed to “1.33” so that the line reads: “HR: 1.12, 95% CI: 0.35 to 1.33.” This data is reported correctly in Table 3.

We apologize for this error.
